

TECHNICAL BULLETIN

Title	Compliance of FA Goods with the EU WEEE Directive
Date of issue	February 2023
Relevant Models	All models of FA goods

Thank you for your continued patronage of our products.
 For a sustainable society, the WEEE Directive symbol will be added to the products. This symbol indicates that the product should be disposed of separately from domestic waste so that the product can be reused or recycled to reduce the amount of waste electrical and electronic equipment based on the EU Directive on Waste Electrical and Electronic Equipment (WEEE *1). This change does not affect the functions and performance of the products.

1. Target Model

The products, cables, connectors and so on, which CE marking are added.

2. Details of the Change

The WEEE Directive symbol will be added to the products.

WEEE Directive symbol

- Note 1. Some products without electrical and electronic components (such as Base Adapters) are not applicable.
 2. A manual containing the above-mentioned information will be included with some of the products which "WEEE Directive symbol" cannot be attached to (such as cables).
 3. The symbol may be added at different times depending on the model.
 4. Both the products with the symbol and the products without the symbol may be distributed in the market around the same time depending on the stock status.

3. Schedule

This change has been applied to the products shipped on and after January 2023.

*1 Directive on Waste Electrical and Electronic Equipment (WEEE):

An EU directive aiming to reduce the amount of waste electrical and electronic equipment by promoting the reuse and recycling of equipment.

All company and product name herein are either trademarks or registered trademarks of their respective owners.
