

Precautions

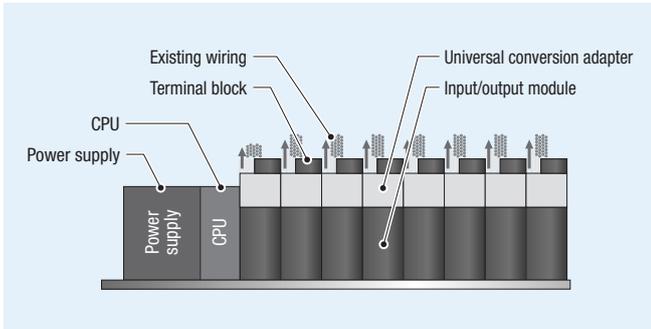

Check that the specifications of MELSEC-Q series modules satisfy the specifications of the devices currently connected. Refer to the user's manuals for the MELSEC-Q series module used prior to use.

Module width

(1) The width of MELSEC-Q series modules is 27.4mm. The wiring area may become smaller. Check the wiring area when mounting a conversion adapter.

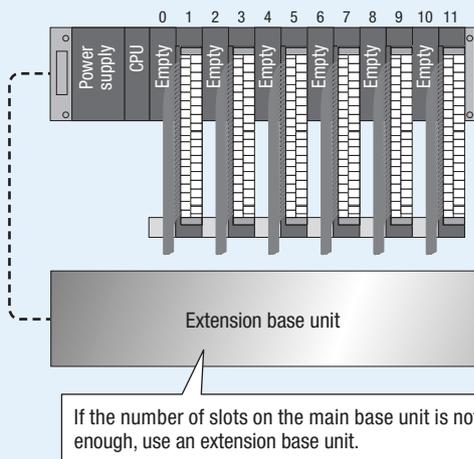

(2) If the wiring causes interference with adjacent modules, lift the cables forward to prevent interference.

(3) If interference still occurs, leave the next slot open to secure a space for wiring.

(Example) When the Q312B is used

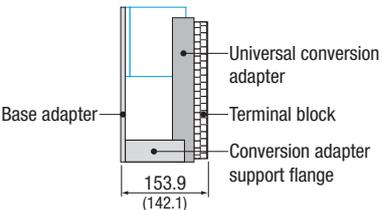

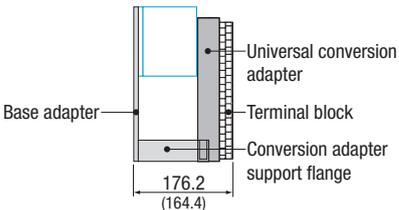

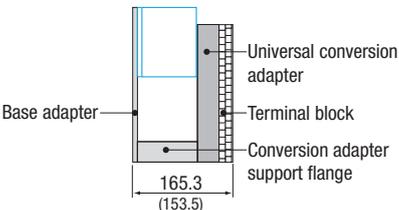

Attach a connector cover included with the base unit or a blank cover module (QG60) to prevent dust from entering connectors where no module is mounted.

(4) If modules cannot be replaced in accordance with (2) and (3), consider the use of the Q series large type base unit manufactured by Mitsubishi Electric. → P.24

Depth

The depth after replacement is shown below. The depth from the panel surface may increase. Check the depth when mounting a conversion adapter.
 Values in parentheses (shorter by 11.8mm) are the dimensions when a base adapter is not used.

Conversion adapter support flange, base adapter

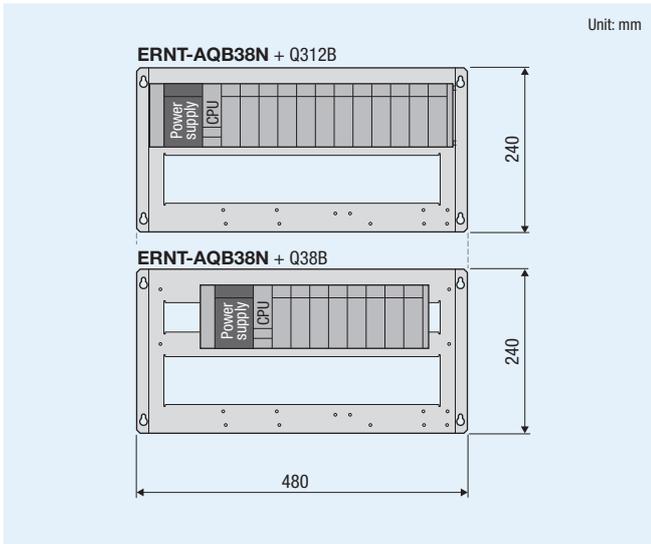

When a universal conversion adapter is used, the conversion adapter support flange is always required.

Also, it is recommended to use a base adapter that enables installation of the MELSEC-Q series base unit and the conversion adapter support flange at the same time without drilling any additional installation holes.

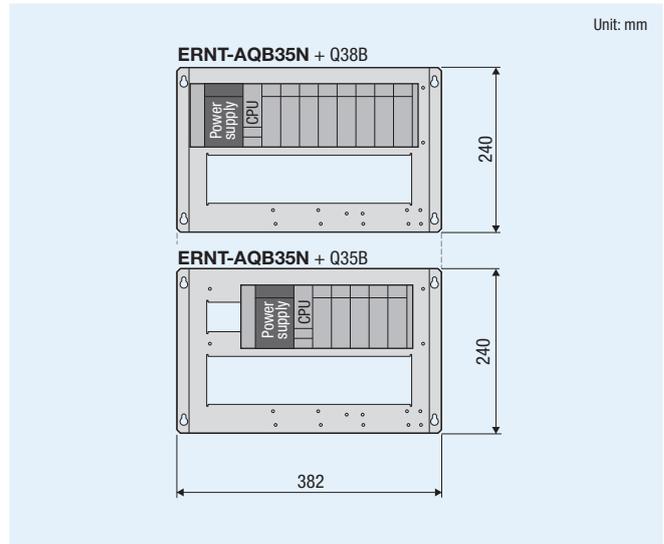

Slot positions

The slot positions will be as follows after replacement.
Change the slot positions of modules and adjust wiring lengths prior to use.

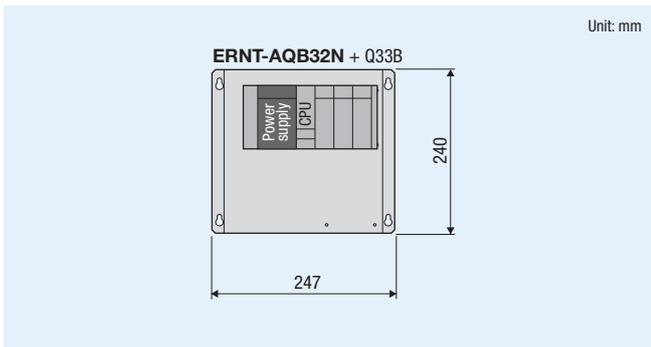

(1) ERNT-AQB38N

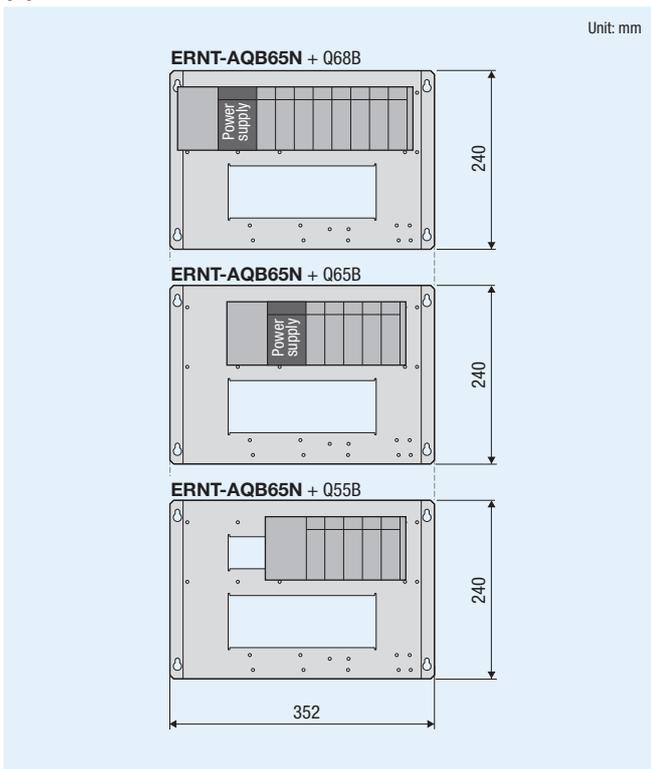

(2) ERNT-AQB35N

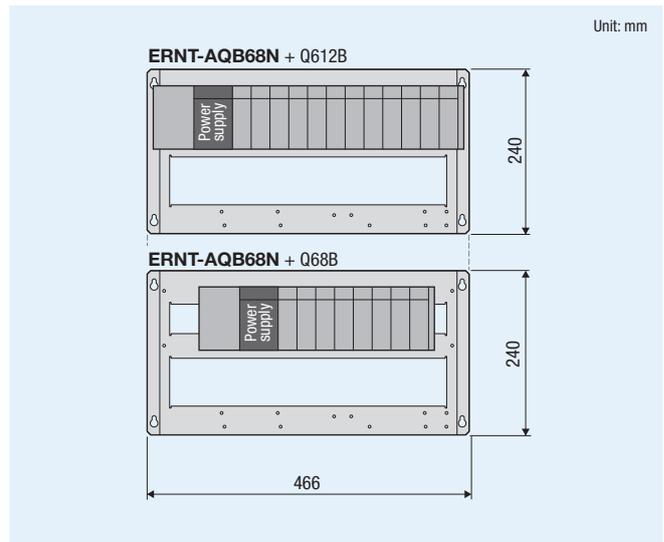

(3) ERNT-AQB32N

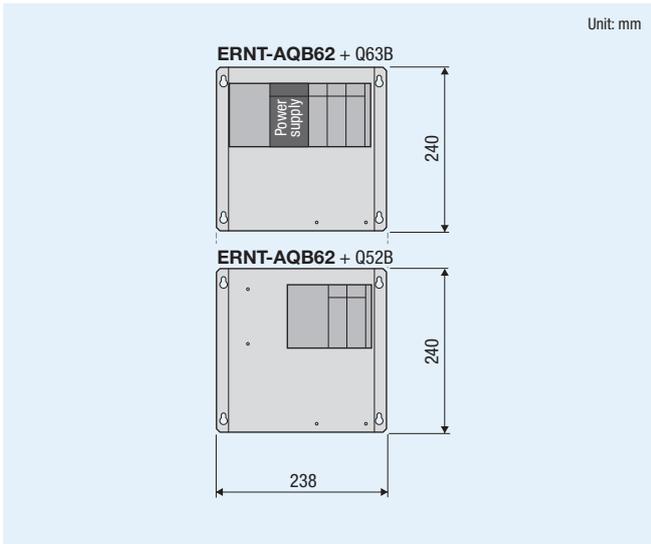

(5) ERNT-AQB65N

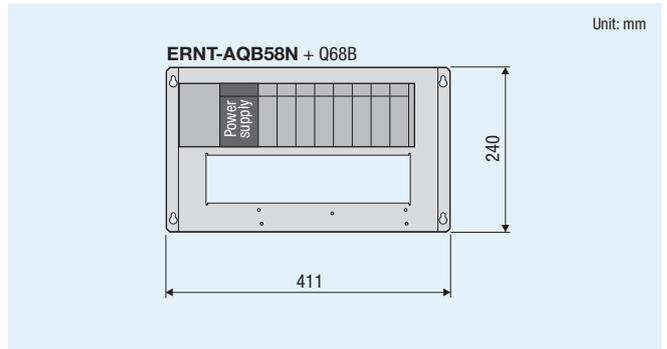

(4) ERNT-AQB68N

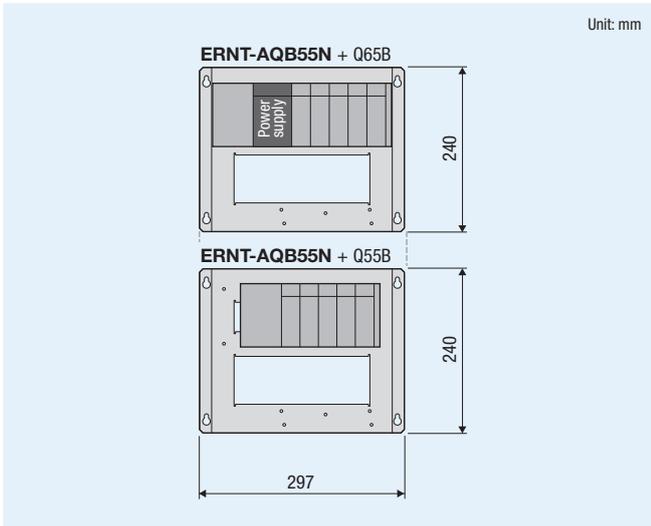

(6) ERNT-AQB62

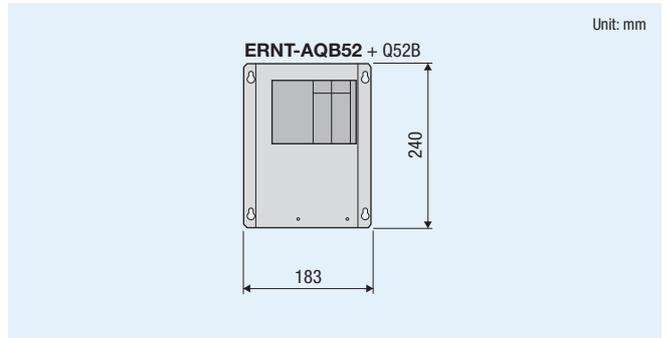

(7) ERNT-AQB58N

(8) ERNT-AQB55N

(9) ERNT-AQB52

Small type

Model list

Universal conversion adapters (small type)

Check that the electrical specifications of MELSEC-Q series modules satisfy the specifications of devices currently connected.

For input/output modules

1-slot type (Applicable to MELSEC-Q series large type base units (MELSEC-AnS series size) (Q□□BLS, Q□□BLS-D) as well)

 **POINT**

The universal conversion adapter (small type) can be used in the following system replacement.

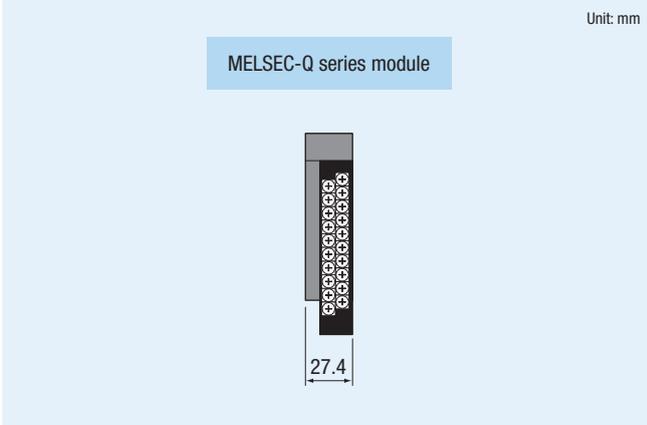

- MELSEC-AnS series → MELSEC-Q series
- SYSMAC C series (C200H and CS series) → MELSEC-Q series
- New satellite JW series (small type) → MELSEC-Q series
